Michael.Fainberg@afslaw.com

Michael is a registered US patent attorney with an engineering background. His practice focuses on intellectual property (IP) counseling and global patent portfolio management. Michael has successfully obtained over [1,400 US patents](#) and hundreds more internationally, spanning diverse technological fields, such as computer systems and software applications, microelectronics, telecommunications, cybersecurity, cloud computing, financial technologies (including blockchain and cryptocurrency), and artificial intelligence (AI) and machine learning (ML). Beyond his patent prosecution work, he represents clients in patent trials and post-grant proceedings, provides expert patent opinions, and offers strategic counsel in IP transactions.

Michael leads a team of patent attorneys and agents who have successfully obtained over [200 US patents](#) for AI/ML-related technologies, with hundreds more patent applications pending. Michael also frequently lectures and publishes on various topics related to patenting AI and software technologies in the US.

Client Work

Michael develops and manages global IP portfolios for US and international technology companies:

- Managing the US patent portfolio for a rapidly growing international AI/ML solutions developer.
- Developing global patent and trademark portfolio for an international cybersecurity software provider.
- Assisting the world's leading LCD/OLED display manufacturer with the US patent procurement.
- Managing the global patent portfolio for a provider of cloud solutions for backup and disaster recovery.
- Developing the US patent portfolios for Chinese networking equipment manufacturers.
- Managing the US patent portfolio for an international developer of cloud server virtualization software.
-

Managing US patent procurement for European automakers and railroad equipment manufacturers.

Michael also represents companies in technology-related litigations and PGR proceedings:

- Inter Partes Review involving patent for data compression technology *Acronis Inc. v. Realtime Data LLC*
- Inter Partes Review involving patent for data backup technology *Acronis Inc. v. Realtime Data LLC*
- Patent infringement case involving data compression technology *Realtime Data LLC v. Acronis Inc.*
- Patent infringement case involving software activation technology *Uniloc USA Inc. v. Acronis Inc.*
- Patent infringement case involving software registration technology *Uniloc USA Inc. v. Acronis Inc.*
- Copyright, trademark and licensing dispute between a software vendor and distributor *Kaspersky Lab Inc. v. Tall Licensing Ltd.*

Previous Work

Prior to joining ArentFox Schiff, Michael was an associate in the New York office of a prominent law firm. He also worked as a patent agent while attending law school.
